LEED points for Pergo wood flooring produced in Malaysia

Category	Intent	Requirements	Points	Pergo fulfillment
Materials & Resources MR Credit 7 Certified wood	To encourage environmentally responsible forest management.	Use a minimum of 50% (based on cost) of wood-based materials and products that are certified in accordance with the Forest Stewardship Council's principles and criteria, for wood building components.	1	The wood floorings contain 70% PEFC certified wood. PEFC is similar to FSC.
Indoor Environmental Quality IEQ Credit 4.3 Low-Emitting Materials – flooring systems	To reduce the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well-being of installers and occupants.	Projects outside the U.S. may use products tested and deemed compliant in accordance with either the CDPH standard method (2010) or the German AgBB Testing and Evaluation Scheme (2010).	1	The wood floorings are tested according to the Eurofins Indoor Air Comfort Gold test range. AgBB is one of the verification points of this test range. Our wood floorings pass the tests.
Materials & Resources MR Credit 5 Regional Materials	To increase demand for building materials and products that are extracted and manufactured within the region.	Use building materials or products that have been manufactured, within 800 kms of the project site for a minimum of 10% or 20%, based on cost, of the total materials value.	2	The wooden floorings are produced in Malaysia. They are distributed from central, regional warehouses. Points can be earned if the total distance to the project site does not exceed 800 km.
